Avoid Becoming 'Predictable' and 'Needy'

Lesson 1 recap:

When FIRST texting a woman, you want to avoid being thought of as 'needy' and 'predictable'.

One of the biggest 'AHA moments' for me regarding texting women was realizing that women do NOT want to get to know you through texting.

I used to believe the complete opposite.

I thought that if I met a new woman or especially if I met a woman online, that she would WANT to get to know all about me through the phone.

Because of this, I would text her back QUICKLY and try to tell her my whole life story through texting.

This is a BAD move - women want to get to know you in person...

The cell phone should be used to keep her curious and interested... NOT to get to know each other.

The 'Secret' Jerks Use to Get Women

Lesson 2 recap:

The biggest difference between why 'jerks' can finish first and 'nice guys' finish last is because 'jerks' are able to do **ONE THING** extremely well.

*They know how to **ENGAGE** a woman's emotions*

Now - these 'jerks' and 'bad boys' give her an emotional roller coaster ride... but an unhealthy one.

Nice guys give her **NO** emotional roller coaster.

What is the solution?

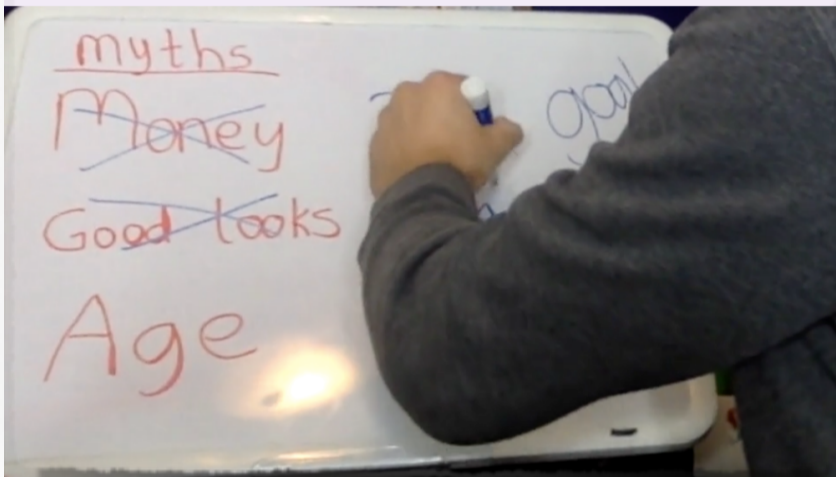

Be a good guy that **KNOWS** how to keep her emotions engaged in a healthy way. One of those ways is to reply **SLOWER** to get her anticipating and curious about when you will text her back next.

Lesson 3 recap:

Many men fall into the trap of these ‘limiting beliefs’ about why they can’t be successful with women. Three of the main ones are thinking you need MONEY, GOOD LOOKS, or need to be a certain age to attract women.

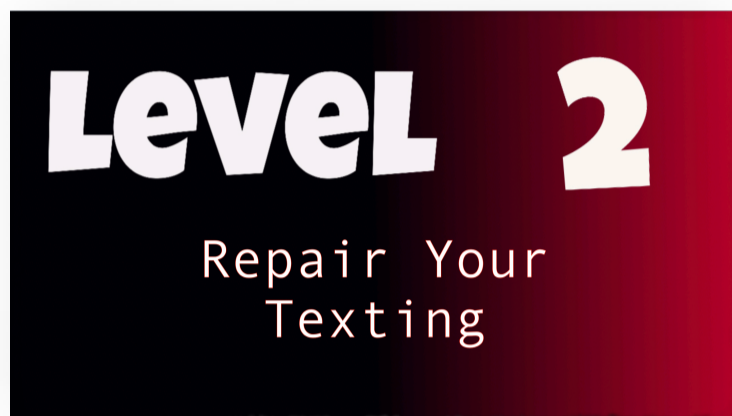

Although MONEY is a bonus and can help with women, you don’t need money, you DO need to have GOALS as a man.

Although GOOD LOOKS are a bonus and can help with women, you don’t need good looks, you DO need to have status and confidence.

Although AGE can seem like a factor, it never is. It can work for you or work against you, but it is all about how you yourself think about your age.
